

GPOH-Tagung (18.10.2018)

10.00 - 10.15 h

Diffuse glioma WHO grade II of childhood and adolescents: Which treatment recommendations result from molecular histology?

A. Gnekow, Augsburg (10 min + 5 min)

10.15 - 10.35 h

Novel developments in pediatric brain tumor molecular diagnostics and therapy: the MNP2.0 study and LOGGIC Europe trial MNP2.0/LOGGIC

O. Witt, Heidelberg (15 min + 5 min)

10.35 - 11.00 h Pause

11.00 - 11.20 h

Therapy optimization in early childhood medulloblastoma: Subgroup-specific survival and IQ-outcomes

S. Rutkowski, Hamburg (15 min + 5 min)

11.20 - 11.55 h PSAPOH

30 Jahre PSAPOH - State of the Art der psychosozialen Versorgung und wie geht es weiter

(H. Schröder)

Aktuelles aus der Forschung in der psychosozialen Versorgungslandschaft

(T. Pletschko)

Posterausstellung - Forschung in der Psychosozialen Versorgungslandschaft

11.55 - 12.15 h

Risk adapted treatment of low-and intermediate risk neuroblastoma patients

T. Simon, Köln (15 min + 5 min)

12.15 - 12.30 h

Tumor predisposition in heritable retinoblastoma

P. Temming, Essen (10 min + 5 min)

12.30 - 12.45 h

Does it make a difference? Impact of the HLH registry on clinical patient management in a rare disease

S. Ehl, Freiburg /K. Lehmborg, Hamburg (12 + 3 min)

12.45 - 13.00 h

The Increasing Role of Cancer Predisposition Syndromes in Pediatric Oncology

C. Kratz, Hannover (10 + 5 min)

13.00 - 14.00 h Mittagspause

14.00 - 14.20 h

Moving from clinical phenotype to multiparameter pattern in risk assignment of modern childhood ALL therapy

M. Schrappe, Kiel (15 min + 5 min)

14.20 - 14.40 h

Prognosis Factors and Therapy in Pediatric AML

D. Reinhardt, Essen (15 min + 5 min)

14.40 - 15.00 h

Genomics of myelodysplastic syndromes in young individuals

C. Niemeyer, Freiburg (15 min + 5 min)

15.00 - 15.20 h

COSS & EURAMOS-1: Multicentric, international cooperation of a GPOH solid tumor group within a transatlantic consortium – challenges, results, conclusions

S. Bielack, Stuttgart (15 min + 5 min)

15.20 - 15.40 h

Ewing Sarcoma- an overview

U. Dirksen, Essen (15 min + 5 min)

15.40 - 16.00 h

Childhood Renal Tumours – The SIOP/GPOH approach

R. Furtwängler, Homburg (15 min + 5 min)

16.00 – 16.30 h Pause

16.30 - 16.45 h Fritz-Lampert-Preis

16.45 - 17.00 h

PHITT-study, CHIC-stratification, Molecular analyses, MiRNAs: what is new in the field of hepatoblastoma and hepatocellular carcinoma?

I. Schmid, München (12 min + 3 min)

17.00 - 17.15 h

The special role of Chronic Myeloid Leukemia in pediatrics: from a model disease in oncology to the identification of age-specific features

M. Metzler, Erlangen (12 min + 3 min)

17.15 - 17.30 h

Ovarian Sex Cord Stromal Tumors: How to Improve Treatment for Rare Tumors - A Report from the German MAKEI and STEP Working Groups

D. Schneider, Dortmund (12 min + 3 min)

17.30 - 17.45 h

The INFORM study: INdividualized therapy FORe Relapsed Malignancies in children

B. Worst, Heidelberg (12 + 3 min)

17.45 - 19.30 h Mitgliederversammlung
