C|A|U Christian-Albrechts-Universität zu Kiel

UKSH UNIVERSITÄTSKLINIKUM Schleswig-Holstein

The University Medical Center Schleswig-Holstein is one of the largest university hospitals in Europe with more than 80 clinics and institutes. It offers outstanding medical treatment and excellence in research and education with nearly 12,500 employees, 2,470 patient beds and more than 100,000 hospitalized patients, 240,000 outpatient cases and in excess of 3,000 births a year. We provide top research at the interface of medicine, science and technology and maintain research co-operations with universities all over the world.

Postdoctoral scientist (m/f)
Molecular cell biology, tumor cell biology
Department of Pediatrics I

We are seeking competent support to strengthen our team in Kiel as soon as possible.

Our ALL-BFM study group at the Department of General Pediatrics (chair: Prof. Dr. M. Schrappe) is working on molecular mechanisms favoring the survival of residual leukemia cells in different organ niches in pediatric acute lymphoblastic leukemia. A better understanding of the biology of residual tumor cells can open new therapeutic options.

Your role:
Our particular project will focus on novel mechanisms of how leukemic cells infiltrate the central nervous system (CNS) niche and on how these mechanisms can be utilized as therapeutic targets and diagnostic/prognostic markers. Furthermore, the group is working on innovative immunotherapeutic approaches targeting residual disease in collaborative projects. You will actively support all our research activities.

Your profile:
This position requires a doctoral degree in molecular cell biology or a related field and the ability to work independently as well as within a team. Experience with tissue culture, FACS analysis/sorting and molecular biological standard techniques is mandatory. Expertise in in vivo mouse models is a plus.

This position is limited to two years, with the possibility of extension. Weekly working time is 100% of a full-time position (38,50 hours/week). Working part-time is possible. Salary will be, depending on qualifications, according to the German salary scale 13 TV-L.

The University Medical Center Schleswig-Holstein is an equal opportunity employer. People with disabilities will be given preference in case of equal qualifications.

For more details on the position, please contact the research group leader, PD Dr. med. Denis Schewe, via phone at +49 (0) 431 500-20140 or send an e-mail to denis.schewe@uksh.de. Questions on administrative/salary aspects can be addressed to Marion Zimmermann, phone +49 (0) 451 500-11017. More information on the University Medical Center Schleswig-Holstein and on the Department of General Pediatrics can be obtained online at www.uksh.de/karriere and www.uksh.de/Paediatrie_Kiel/.

We are looking forward to your application. Please submit your application until 31 January 2017, indicating your earliest possible starting date as well as the reference number 20160910, via our online portal:
