

2<sup>nd</sup> POST-GRADUATE COURSE:

## PAEDIATRIC MYCOLOGY

Dear colleague,

It is a great pleasure to invite you to our 2<sup>nd</sup> Post-Graduate Training Course 'Paediatric Mycology' organized by the European Paediatric Mycology Network (EPMyn) and supported by the ESPID, ECCM and EFISG. This training course will be held following the Trends in Medical Mycology (post-TIMM-8), the bi-annual joined meeting of the European Confederation of Medical Mycology (ECMM) and EORTC Infectious Diseases Group.

Internationally recognized European experts in the field of paediatric mycology will update you on the latest developments related to the epidemiology, prevention, diagnosis and treatment of invasive fungal infections in children.

The EPMyn has been launched in 2014 to create a European platform for research and education in paediatric mycology with the ultimate goal to increase our understanding of invasive fungal infections in children and neonates and to improve the outcome.

On behalf of the EPMyn steering group, I am looking forward to greet you at our 2<sup>nd</sup> Post-Graduate Course.

Adilia Warris, chair EPMyn

Steering Group: Adilia Warris (chair), Andreas Groll, Andrew Cant, Carlo Giaquinto, Elio Castagnola, Emmanuel Roilides, Irja Lutsar, Mike Sharland, Nigel Klein, Paolo Manzoni, Roger Brüggemann, Thomas Lehrnbecher.

## Monday October 9<sup>th</sup>

13.45-14.00hr Welcome and Introduction

### SESSION I: FUNGAL INFECTIONS IN PAEDIATRIC CANCER & TRANSPLANTATION

14.00-14.30hr Epidemiology of Fungal Infections in Haemato-Oncology Patients  
*Nigel Klein, professor of paediatrics, London, UK*

14.30-15.00hr Epidemiology of Fungal Infections in Solid Organ Transplant recipients  
*Emmanuel Roilides, professor of paediatrics, Thessaloniki, Greece*

15.00-15.30hr Fungal infections as presenting symptom of primary immunodeficiencies.  
*Adilla Warris, professor paediatric infectious diseases, Aberdeen, UK*

15.30-16.00hr Treatment of Invasive Fungal Infections  
*Andreas Groll, professor of paediatrics, Münster, Germany*

16.00-16.30hr Refreshments

### SESSION II: DIAGNOSTIC TOOLS

16.30-17.00hr Imaging of Fungal Infections  
*Karin Kamphuis – van Ulzen, radiologist, Nijmegen, the Netherlands*

17.00-17.30hr Galactomannan and PCR-Aspergillus; excluding or diagnosing invasive aspergillosis?  
*Thomas Lehrnbecher, professor of paediatrics, Frankfurt, Germany*

17.30-18.00hr How to Dose Azoles in Children  
*Roger Brüggemann, hospital pharmacist/clinical pharmacologist, Nijmegen, the Netherlands*

18.00-19.30hr Interactive Paediatric Cases

20.00hr BUFFET DINNER
